Our Corporate team combines technical expertise with commercial insight to deliver a full range of bespoke services to clients of all sizes, both in the UK and internationally.

Our experience has seen us work with clients ranging from start-up businesses and high-flying entrepreneurs, to established public and private companies, foreign multinationals and their UK subsidiaries, family businesses, private equity firms, and venture capitalists.

We give clients the support they need to realise their objectives, whether that means expanding through merger, acquisition, or joint venture, or divesting businesses, raising finance, or reorganising their company structure. We also advise on all forms of commercial contracts across a wide range of industry sectors.

The team provides an international service, helping clients with cross-border transactions and issues, including advising on inward investment and supporting overseas clients in establishing businesses in the UK.

Whatever the situation, our clients trust us to advise them in what can often be a time-sensitive and high-pressure situation.
